Subject: Dimock - DRAFT Toxicologist Memos for the Radionuclide Data

Attached for your review please find a Draft Toxicologist Memo regarding the 61 residential wells sampled from January 2012 through March 2012. The memo was prepared by Dawn Ioven, Region 3 toxicologist, based on her review of the RAD data. The residential data summary reports data were provided to the environmental unit in the attached e-mail on 6/28/12.

Please review and provide any comments you may have regarding the data summary reports and/or the tox memo as soon as possible. EPA expects to provide the final tox memos to residents along with their sampling results in mid-July. Feel free to contact me with any questions and/or if you need additional info.

Please note that the RAD data summary reports for the three locations sampled in May 2012 will be forwarded as soon as the data is finalized.

Thank you - Kelley

Subject: Dimock Residential Ground Water Sampling - DRAFT Residential Radiation Data Reports

Attached for your review please find PDFs of the DRAFT Residential Radiation Reports for the residential wells sampled during Round 1.

While the data has been validated and is considered final, the reports are considered DRAFT until our review is completed. Please be sure to limit the distribution of these reports to an internal review as we have not yet shared the data with residents or with PADEP.

It is my understanding that EPA expects to release this data to the public mid-July.

Thank you - Kelley
